

VOITH DIGITAL SERVICES BASIC

The smart way to efficient crane maintenance

REMOTE MAINTENANCE REDEFINED

Voith Digital Service – Basic revolutionizes the remote maintenance of crane systems. State-of-the-art technologies guarantee reliable and significantly faster fault analysis – without the need for technicians to be on site. This means shorter downtimes, lower costs and greater operational reliability.

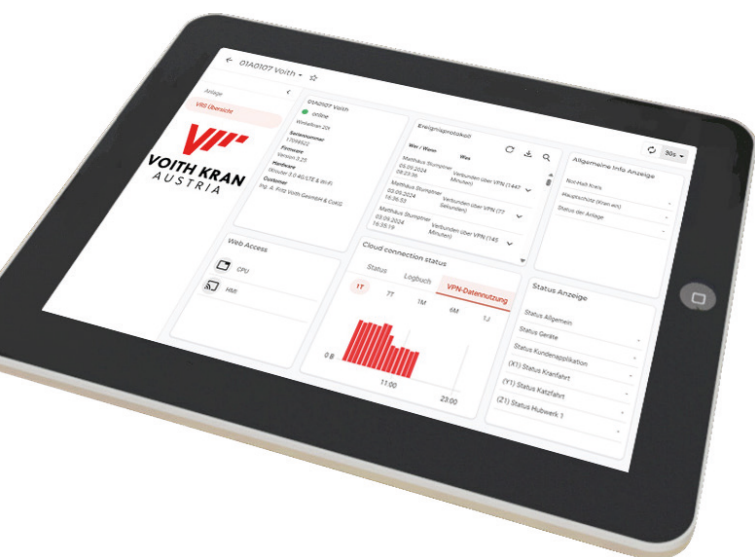

YOUR ADVANTAGES:

Absolute cost transparency

Fast response times

MAXIMUM EFFICIENCY AND SAFETY

Remote maintenance minimizes unplanned downtime and maximizes operational continuity. By complying with the NIS2 guidelines, we also guarantee the highest data security standards.

Voith Digital Services – Basic:

The customized solution for today's requirements – efficient, fast and reliable.

Included time credit

Standard dashboard

Unlimited number of users

2-factor authentication

NIS-2 compliant

Continuous expansion
